

Flooring Restorer is a Green Seal™ (GS-40) certified floor polish utilizing a new cross-linking mechanism to achieve a low VOC, zinc-free formulation delivering outstanding durability and gloss.

# FLOORING RESTORER

*Environmentally Preferable Floor Polish*

### FEATURES/BENEFITS:

|                  |  |
|------------------|--|
|                  | Flooring Restorer contains no heavy metals making it more environmentally preferable.  |
| Durable          | An acrylic co-polymer polish provides extra durability   |
| Easy-to-Use      | Application is easily done with a polish mop, leveling with no streaks or mop trails and drying in 30 minutes.   |
| Easy Maintenance | Easily maintained by damp mopping, spray buffing or burnishing   |
| Slip Resistant   | Flooring Restorer meets or exceeds slip resistant standards (when properly maintained) established by CSPA and UL as tested in accordance with ASTM-D-2047 |

### APPLICATIONS:

Apply Flooring Restorer with a rayon mop or microfibre mop. Four coats are recommended (Residential use 2 coats). Use this polish in schools and educational services, retail establishments, sports and recreation clubs, hospitals and nursing homes, hospitality industry, apartment buildings, municipalities, and government buildings.
